

ICTR RESEARCH DAY

Survive and Thrive in Uncertain Times

Wednesday, Sept. 10, 2025 — Health Sciences Learning Center

Join us for Research Day!

This one-day event will dive into the current research landscape and equip you with practical skills to navigate common challenges. Expect interactive workshops, networking opportunities, and a showcase of innovative research.

Who should attend?

ICTR Research Day is for anyone involved in or interested in research with health implications. Whether you're just starting out or are a seasoned investigator, this event is designed to support your journey.

What is ICTR?

ICTR helps researchers move their findings from experimental settings into real-world use in clinics and communities. We do this through career development programs, funding, and services that support the development and delivery of research projects.

Agenda

- 8:00–8:30 am **Registration & refreshments**
- 8:30–8:45 am **Introduction & welcome**
- 8:45–9:45 am **Keynote presentation**
Lessons learned from a career filled with course corrections, U-turns, flat tires, and engine failure
