Project/Performance Site: Secondary Dissemination Location (if applicable)			
Organization Name:			
Street:			
City:	County:	State:	Zip:

Provide a description of what evidence will be packaged and/or disseminated (1,000 character limit):

Check the box indicating how the evidence base was established:

- Included in recognized registries of evidence-based interventions, such as AHRQ, Cochrane review, Guide to Community Preventive Services, Guide to Clinical Preventive Services, What Works for Health, etc.
- Reported in peer-reviewed journals (released or in press).
- If neither (1) or (2) apply; justify in your application the documented effectiveness as supported by other sources of information and the consensus judgment of informed experts (1,000 character limit).

Is there evidence that this type of dissemination activity is a good fit for your target audience/stakeholders? (1,000 char. limit)

Please describe your goals for this supplemental funding, and briefly describe how you will achieve these goals. Note: If you plan to post a toolkit on HIPxChange, you need to schedule a consult prior to your application submission. See here for Information about [Planning a Toolkit on HIPxChange](#).(2,000 character limit)

How will you judge if your project is a success? e.g., How will you evaluate whether you successfully met the goals set forth in your proposal? This question is intentionally broad to allow for a diverse range of project proposals. (1,000 char.)

What is your ultimate plan for dissemination after the supplemental funding ends? (1,000 character limit)

Name and describe the role of partners. Provide rationale if partners are not included in your proposed activities. (1,000 char.)
