

KEEP UW ICTR UP-TO-DATE WITH NIH

Please help us continue our support for your clinical and translational research by citing our NIH grant number in your publications and PubMed Central submissions:

*The project described was supported by the Clinical and Translational Science Award (CTSA) program, through the NIH National Center for Advancing Translational Sciences (NCATS), grant **UL1TR000427**. The content is solely the responsibility of the authors and does not necessarily represent the official views of the NIH.*

Need Help? Many UW-Madison campus resources are available to assist investigators – individual assistance can be obtained by contacting Ebling Library staff, nihpolicy@library.wisc.edu.

UW Institute for Clinical and Translational Research
UW ICTR

UW ICTR Support for Your Research

ICTR support includes not only direct fiscal support such as funding for pilots and career development awards, but also use of ICTR resources such as the Clinical Research Unit; consultations in biostatistics, community-engaged research, biomedical informatics, scientific editing, scientific review committees, and WiNHR; or services from ICTR-affiliated laboratories.

Don't Forget PubMed Central Submissions

Investigators holding an NIH grant, or receiving services through an organization like the NIH-funded ICTR, must submit publications arising from such support to the NIH Manuscript Submission System (nihms.nih.gov) or ensure that the publisher is submitting the publication.
