

SCIENCE —OF— SUCCESSFUL AGING SUMMIT | 2017

UNIVERSITY OF WISCONSIN SCHOOL
OF MEDICINE AND PUBLIC HEALTH

THE AGING BRAIN AND DEMENTIA

April 18 & 19, 2017 • Fluno Center, Madison, WI

Summit Sessions Delivered By World-Renowned Experts In Alzheimer's Disease And Dementia In Four Key Areas:

- 1) Epidemiology and demography of aging and dementia
- 2) Biology of aging and neurobiology of dementia
- 3) Imaging technology in aging and dementia
- 4) Frontiers in dementia therapeutics and preventive health

What you will gain:

- Gain ideas to expand your research
- Opportunity to share your work through a scientific poster presentation (application required)
- Network with others from across campus
- Contribute to a campus-wide leadership team and make a difference in the world of aging research

Intended Audience: Faculty, staff and students from across departments and disciplines (basic scientists, clinical researchers, industry scientists and leaders, undergraduate, graduate and doctoral students and post doctorate trainees).

Cost to attend:

- Faculty/Staff: \$100 one day/\$150 both days
- Students/postdocs: \$75 one day/\$125 both days

Register: med.wisc.edu/agingsummit

Presented by the University of Wisconsin School of Medicine and Public Health, the Department of Medicine and the Division of Geriatrics & Gerontology with additional support from the American Federation for Aging Research and the John A. Hartford Foundation.
