

# 2021 INNOVATIONS IN INFORMATICS SEMINAR SERIES

## **Abel Kho, MD, MS, FACMI**

*Professor of Medicine and Preventive Medicine*

*Director of the Center for Health Information Partnerships (CHIP)*

*Director of the Institute for Augmented Intelligence in Medicine (I.AIM)*

*Lead PI, Chicago Area Patient Centered Outcomes Research Network (CAPriCORN)*

*Northwestern University*

The October CHI<sup>2</sup> Innovations in Informatics Seminar Series event: *Complexities of Multi-Institutional Research* will feature Dr. Abel Kho. Increasingly, health research involves larger and larger consortia. These multi-institutional collaborations require navigating complex human, technical, governance, and organizational value challenges. In this session we will describe the ups and downs of multi-institutional research over 15 years in Chicago and invite perspectives on the evolving nature of these challenges with an ear for creative solutions.

Time for Q & A is included.

## *Complexities of Multi- Institutional Research*

**Friday,  
October 15, 2021**

**12:00-1:00 PM CST**
